

### **What can your high school club do?**

- 1) Post on instagram and make sure you are interacting with social media in a productive, helpful way that brings people in and is inclusive
- 2) Connect the seniors in your club with planned parenthood generation chapter on their colleges
- 3) Partner with your school's affinity groups or other students who might add a new perspective to the conversation--try to connect issues together and make sure you are listening to people!
- 4) Host 1 on 1 sessions with kids at your school
  - Find a safe space and invite students to speak to you about their concerns, questions, and confusion. This is highly confidential and only ONE person should be present for these conversations
- 5) Get involved with voter registration in your town and get **18-year-olds** to the polls come November!
